TABLE OF CONTENTS

Essentially, an idea that blends simplicity with a modern feel

Novatech, always at the forefront, is launching a new Design collection of steel entrance doors that set themselves apart with their contemporary style and clean lines.

Dare to give your home the modern look!

A superior quality collection

A technique that has been in use since the Middle Ages, stained glass is a decorative composition formed from pieces of glass. These glass pieces are joined together with brass, zinc or patina camings.

A unique collection

The Thermacrystal collection introduces new technology to doorglass production. This new molding process, exclusive to Novatech, thermoforms a polyester film, producing designs with complex, pure lines. It also reproduces different glass textures.

A privacy collection

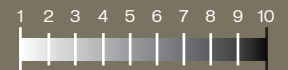

Our grooving process incorporates an engraving technique on sandblasted or glue chip glass for even greater privacy. The delicate designs on some models provide a classic look

SILKSCREEN SERIES

COMMODITIES

NEW

Privacy scale

1-3 Clear

Objects on the other side of the door are easily distinguishable.

4-7 Semi-private

Objects on the other side of the door are distorted but visible.

8-10 Private

Only light shows through the door. It is impossible to distinguish the nature of any object on the other side.

THE SERIES

Affordable elegance

The soft appearance of sandblasted glass provides privacy while allowing daylight to penetrate. Wide array of Victorian, romantic and contemporary designs.

Internal grill

Offered in several grill styles, shapes, colors and configurations.

Elevation venting unit

Best venting unit on the market, eliminating the need for a storm door with its large ventilation surface.

Discretion® mini-blinds

New generation of our retractable mini-blinds

Price range

 = Economical
 = Mid-range
 = Upscale

All sizes are glass sizes (except 13 7/8" x 79" tip to tip). Full 1" insulated glass on all fixed units for maximum insulation. 10-year warranty against seal failure on all glass, unless otherwise indicated.

 mechanism

22" x 48"

HIGH PERFORMANCE

- › Sealed between two panes of tempered glass with Intercept® spacer bar
- › Low E glass for better energy efficiency

EASY TO OPERATE

- › Slider that is fixed under the frame making operation easy
- › Raise and lower action

ROBUST BLINDS

- › Bottom rail stabilizes the blind and avoids unequal spacing between the slats
- › Laboratory cycle test: the unit withstood 22,000 continuous cycles, equivalent to raising and lowering the blinds 3 times per day for 20 years.

Low E+Argon

THE ERGONOMIC VENTING UNIT

NOVATECH, ALWAYS AT THE FOREFRONT OF PROGRESS

Elevation is a unique venting unit with a balance system. This ergonomic doorglass opens and closes easily as a result of this balance system, which allows for better control as well as ensuring user safety.

ERGONOMIC

1. To open, a light upward movement is sufficient aided by a balance system (less than 10 lbs opening force).
2. Its two grip points help with raising and lowering.

SAFE

3. The central lockset creates a better seal.

AESTHETIC

4. A large selection of glass is available in four sizes: 22"x36", 22"x48", 20"x64" and 22"x64".

CONVENIENT

5. Its mobile multi-position sash with no fixed stop point ensures that the doorglass can be raised or lowered to the desired level.
6. Its 50/50 split opening optimizes ventilation.

Add character and depth to your Prestige entrance door!

The Prestige mouldings are a perfect match for the Prestige steel door collection (XE Plus embossment).

These Prestige mouldings have many advantages:

- › Can be installed on one or both sides of the door
- › Can be painted (made in aluminum)
- › Insulation value of the door preserved (no cut out)
- › No risk of water infiltration

© 2012 Novatech

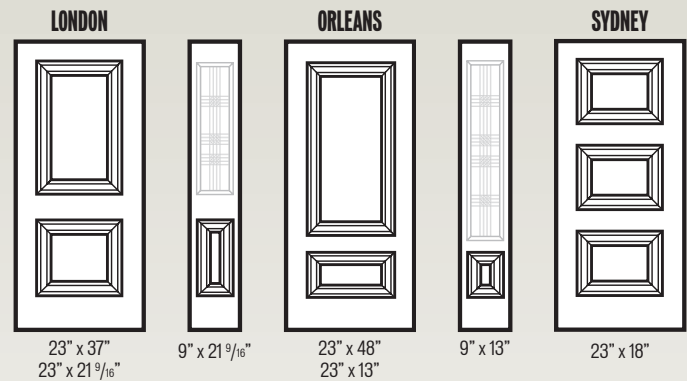

The Prestige mouldings will align with the doorglass frame when installed on a Prestige door.

Configurations

Prestige mouldings are offered as an option exclusively with the various models in the Prestige collection.

Energy Efficiency Zone C* Program for steel doors

Low E+Argon

WE OFFER ENERGY EFFICIENT PRODUCTS

With our new generation of doorglass offered with Low E glass and Argon gas, Novatech's products are energy efficient. Almost all of our doorglass collection qualifies for A, B and C Energy Star® zones for our steel doors.

Zone coverage with our Energy Efficiency Zone C* program (Low E glass and Argon gas)

Product family Doorglass dimensions	¼ (Half-moon)	½ (22x36, ¾ oval)	¾ (22x48)	Full (20x64, 22x64, oval)
Dual glass unit with Low E glass and argon gas	Zones A, B, C & D	Zones A, B, C & D	Zones A, B & C	Zones A, B & C
Venting unit with Low E glass and argon gas	Not available	Zones A, B & C	Zones A, B & C	Zones A & B
Stained glass with Low E glass and argon gas (triple glaze)	Zones A, B, C & D	Zones A, B, C & D	Zones A, B & C	Zones A, B & C
Mini-blinds with Low E glass	Not available	Zones A, B & C	Zones A, B & C	Zones A & B

For standard sizes only

ADVANTAGES OF CERTIFIED ENERGY STAR® PRODUCTS

Facts **:

- › Heating accounts for 54% of energy consumption in homes
- › Up to 25% of heat loss is attributable to doors and windows

Compared to doors and windows with low energy efficiency, ENERGY STAR® doors and windows with high energy efficiency ***:

- › Reduce heating costs by up to 10%
- › Reduce the risk of condensation in cold weather
- › Offer more resistance to the infiltration of ultraviolet radiation
- › Demonstrate 20 to 40% better energy efficiency when compared to traditional models
- › Certify that the products selected meet the environmental requirements in effect

* When Novatech's new generation of decorative doorglass is used in an ENERGY STAR® approved system with Novatech door panels.

*** Source: Natural Resources Canada, 2011

Low E+Argon

Doorglass

SECURITY

Tempered glass on all decorative doorglass.

DURABILITY

Double seal on all Stained Glass. Sealed with Intercept® on all other models.

AESTHETICS

The color of the Stained Glass spacer bar (interior perimeter) harmonizes with the Stained Glass coming.

ENERGY SAVINGS

All our decorative doorglass provides high energy efficiency. Systematic use of low-emissivity (low-E) glass and argon gas increases its energy efficiency, thereby reducing heating costs in winter, reducing the solar heat produced in summer, which in turn reduces air conditioning costs.

PRIVACY

Retractable internal mini-blinds: maintenance-free, no dusting required, privacy guaranteed. Available with Low E glass.

Novatech offers the best warranty in the industry. The Novatech limited warranty is fully transferable and non-prorated.

Innovative frames

Don't settle for anything less than a Novatech frame!

Novatech offers you unique frames with an innovative design. These frames come standard with Stained Glass, Silkscreen, Thermoformed, Thermacrystal™ and Total Privacy Series, in most sizes.

BENEFITS

- These frames do not have any visible screw caps and have a stylish appearance.
- These frames have easy snap-on covers that replace the screw caps.
- They will enhance the beauty of your door.

All door inserts include a maintenance-free frame

Will not yellow

Will not crack

Doesn't require painting!

Contemporary frame with snap-on covers

Novatech offers a all-PVC contemporary frame with a modern profile. This frame is available in the Design Collection, which includes steel entrance doors and various glass models in contemporary styles.

The Novatech Group... *Passionately Creating Your Entrance Door!*

10 MANUFACTURING FACILITIES + 4 DISTRIBUTION CENTERS + 1 INNOVATION CENTER

Founded in 1982, the Novatech Group is a leading Canadian manufacturer specialized in the fabrication of products for the door and window industry, such as:

- › *Steel and fiberglass door panels*
- › *A full range of doorglass*
- › *A full range of patio doors*
- › *Retractable screens*
- › *Extruded PVC profiles*

We are now present in more than 15 countries around the world.

INNOVATION

Seeking perfection and better performance, Novatech continuously reviews its methods and processes in order to bring tomorrow's solutions to market today. Our Innovation center allows us to develop innovative products that respond to your needs.

QUALITY

We are committed to the pursuit of excellence with the aim of offering you products of superior quality.

ENVIRONMENTAL COMMITMENT

At Novatech, energy saving and environmental concerns represent undeniable priorities. Over the past few years, we have been working on several projects that are in harmony with the environment.

Please visit our Web site for more information: www.novatechgroup.com.

Design Center

The perfect design tool for you

Our virtual Design Center allows you to create your personal entrance door quickly and easily. You'll be able to visualize the results of your project before you've even started it!

1

Upload a photo of your own house or choose a photo from our bank of images

2

Determine the configuration of your entrance door

3

Choose your entrance door style

4

Add a glass insert to your door

5

End with the final touch for your project

At the end of the process, you'll be able to visualize, save and print your customized door, or send it to a friend. Then you can visit a door and window retailer near you to kick-start your project.

Design Center

The perfect design tool for you

Design your entrance door, a unique experience!

Our virtual Design Center allows you to create your personal entrance door quickly and easily.

At the end of the process, you'll be able to visualize, save and print your customized door, or send it to a friend.

Then you can visit a door and window retailer near you to kick-start your project.
